

LEGEND™ LEGACY PROTECTION

Personal Lines Insurance — Family Protection Guide

Personal lines insurance protects individuals and families from financial loss tied to everyday life—homes, cars, liability, and major assets. The goal is simple: one accident, lawsuit, or catastrophe should not wipe out years of work.

Core Personal Coverages

- Auto Insurance — Liability, medical-related coverages, uninsured/underinsured motorist, and physical damage (coverage names vary by state).
- Homeowners / Renters — Dwelling or personal property protection, liability, and loss-of-use benefits for covered losses (policy forms vary).
- Umbrella Liability — Extra liability protection above certain underlying policies; may cover some claims not covered by primary policies depending on terms.
- Valuable Articles / Scheduled Property — Extra protection for jewelry, watches, art, collectibles, firearms, and other valuables (item-specific).
- Flood / Earthquake — Typically separate policies; standard home policies often exclude flood and may limit earthquake coverage.
- Water Backup / Service Line Endorsements — Optional endorsements that can close common gaps (availability varies).

Key Design Components

- Liability limits aligned to assets and income — Not minimum limits; real protection.
- Deductible strategy — Higher deductibles for premium control; emergency fund readiness.
- Replacement cost vs actual cash value — Know what your policy pays when something is damaged.
- Umbrella readiness — Proper underlying limits, consistent drivers/vehicles disclosure.
- Catastrophe planning — Flood/fire/hail exposure, building codes, and loss-of-use planning.
- Claims philosophy — Know what's worth claiming vs what's better handled out-of-pocket.

Common Gaps We See

- Liability limits too low for the household's net worth.

- No umbrella policy while owning property, having teen drivers, or high public exposure.
- Valuables not scheduled (jewelry, watches, engagement rings).
- Flood risk assumed covered under homeowners.
- Outdated dwelling limits due to inflation and construction cost increases.

When It Often Fits vs. When It Usually Does NOT Fit

Often Fits	Usually Does NOT Fit
• You own a home, drive regularly, or have meaningful assets to protect • You want liability protection aligned with your legacy goals • You want clarity on exclusions and endorsements before a loss happens	• You're relying on bare-minimum limits to save a small premium • You assume everything is covered without reading exclusions • You need coverage for commercial activities under a personal policy

Education Checklist

- Do your liability limits reflect what you actually have to lose?
- Are all drivers, vehicles, and usage accurately disclosed?
- Is your dwelling limit aligned with rebuild cost today?
- Do you need umbrella coverage based on assets, exposure, or profession?
- Are valuables scheduled correctly?
- Do you need separate flood or earthquake coverage for your location?
